Efficient Evolution

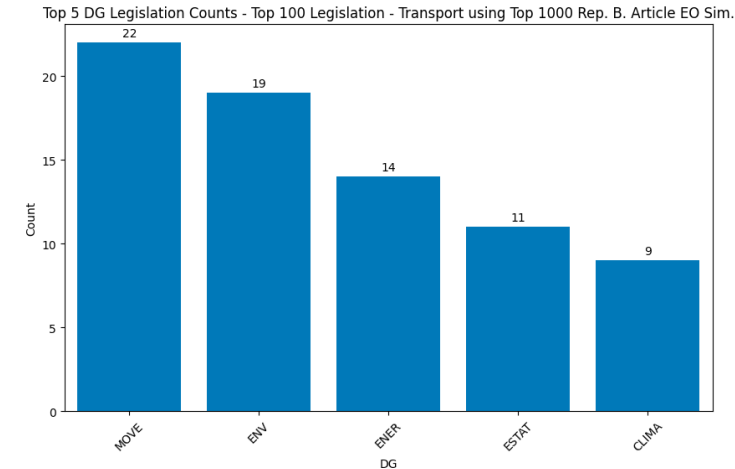

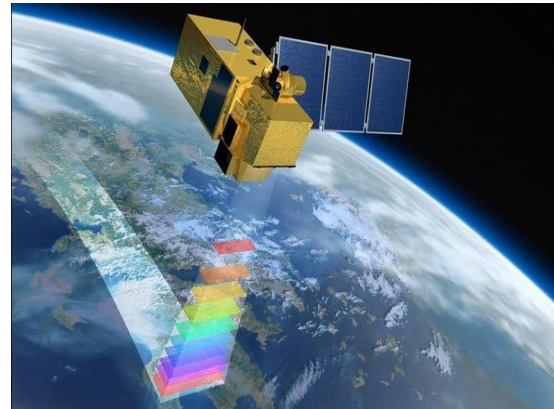

Policy Uptake throughout the policy cycle

Emerging needs

Cross-cutting aspects including EO to alleviate reporting burden

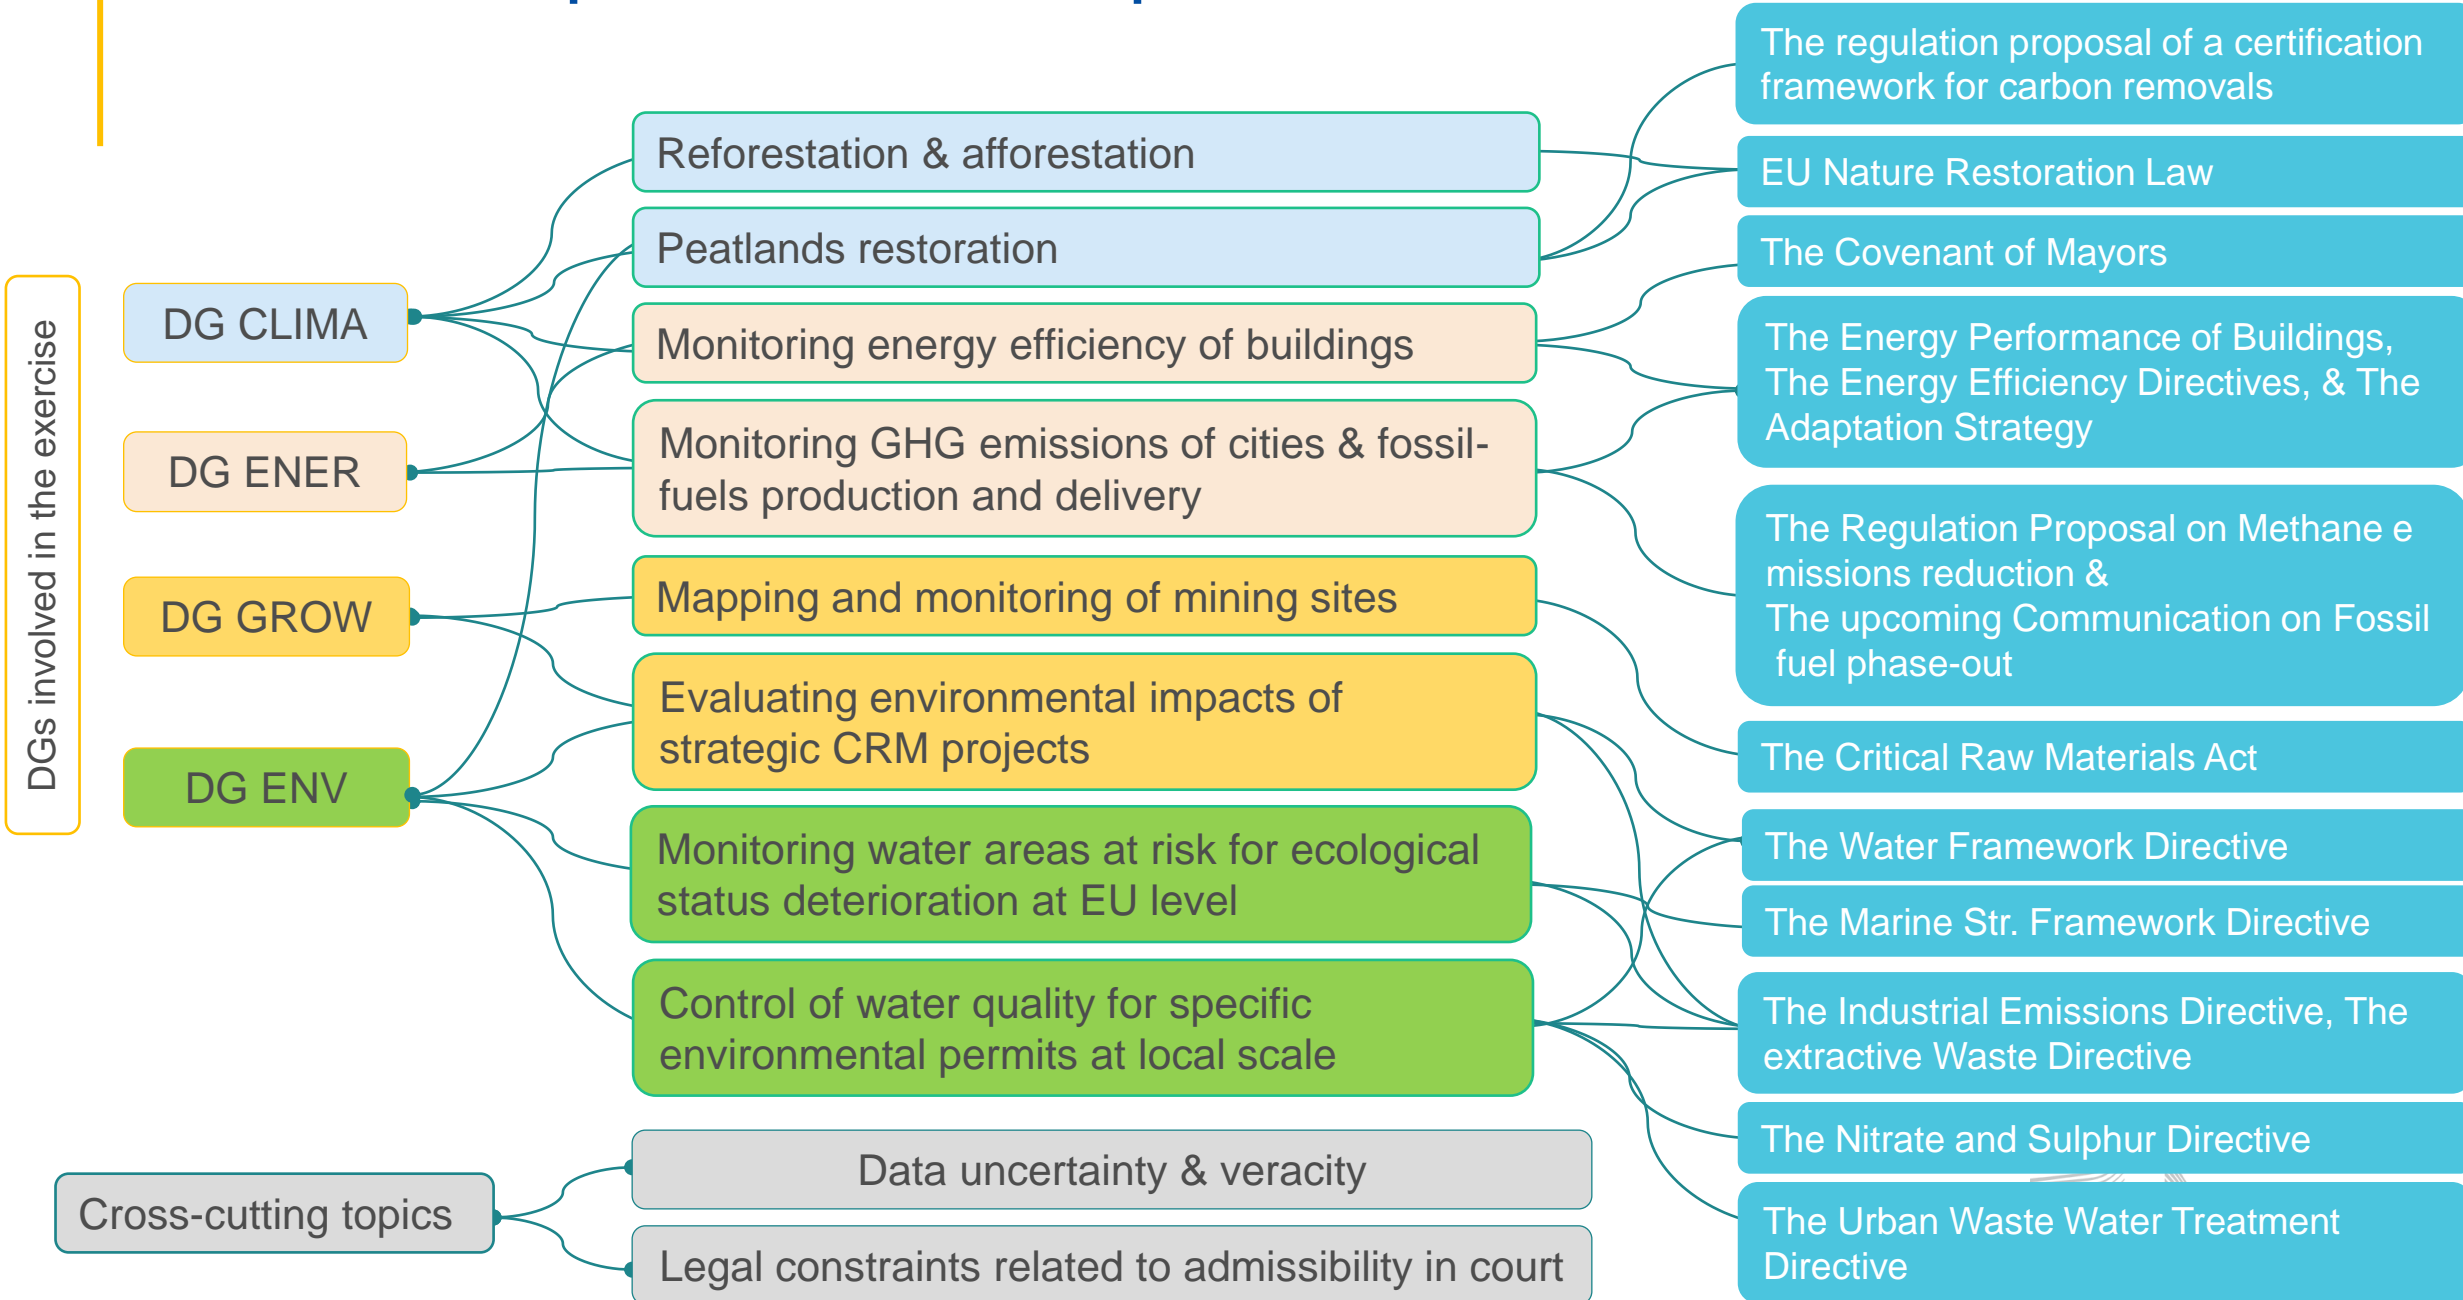

- Seamless monitoring and reporting capabilities that transcend borders and sectoral policies
- Started with deep dive on Compliance Assurance
- Interoperable products and tools
- Use of EO for official statistics
- Two areas of opportunity on reporting burden:
 - Alleviate sampling burden
 - Policy coherence, measure once use many times

Initial Activities on Reporting Burden:

1. **Overview assessment of the EO potential to support reporting across EU Legislation**
2. **Use case illustrating the concrete example of EO in support of reporting for specific policies**

KCEO Deep Dive on Compliance Assurance

Questions

1. How important is the EU policy framework to the uptake of EO services?
2. What are the key factors which influence the uptake, for public policy and decision-making, in a country?
3. What are the main cross-cutting policy aspects we should be addressing to enhance uptake across sectors?
4. What is the benefit of sharing ideas, tools, best-practices? and what could European institutions, agencies and the ESA do to facilitate the uptake?
